- ✓ Ongoing content development - new exams and new subjects covered
- ✓ Free content upgrades

9 ways to use OSC Study in class and beyond

Flipped classroom

- 1 Before class, have the students read the relevant flashcards, revision guides or watch videos. Quiz for understanding, then use class time to do authentic work, experiments.

Group work in class

- 2 Partner students to take turns answering questions or to respond as a pair.
- 3 Set up work stations around the class, asking students to answer a question correctly before moving on to the next one.
- 4 Have students watch a video or read a chapter and challenge them to teach it to the class.

Exam preparation in class

- 5 Have students think/pair/share specific exam questions.
- 6 Show students specific exam questions, work them out as a class, focus on key terms, applications of theory, and focus on common errors.

Students revising for exams on their own

- 7 Practice an entire exam, timed, with only the materials allowed.
- 8 Try out a specific exam question, if there is something they don't understand, look at the detailed solution/video and learn from their mistakes. Keep a list of errors to avoid.
- 9 If unsure how to solve an exam question, it will show the relevant theory and syllabus topic addressed. Go and read/watch videos about it and return to the question.

What users say about OSC Study

"I found the videos and explanations very straightforward and easy-to-follow. If I didn't understand a topic or an aspect of a certain video, it was great to be able to rewind and listen to/watch it again. A wonderful source for revision!"

ANDERS J. IB Alumnus - Langkaer Gymnasium
Denmark

"You can see that the authors have deep knowledge of the courses and help to prepare students thoroughly, ensuring that nothing is missed. Revision can be a social activity, independent and fun!"

**MALCOLM
NICOLSON** Former Head of IB DP Development
The Netherlands

"I think the cards are excellent. The author has managed to conserve the conceptual nature of the new syllabus, which is great. I would certainly recommend them to my students."

**PAM
CARTER** Former IB DP Coordinator
Malaysia

"I loved how the videos break down the subject matter very simply, making the material easy for the student to absorb. (love the jokes btw, never quit! lol) P.S. I passed physics, so
THANK YOU SO MUCH."

**NOORHAN
ELSAYED** IB Alumna - The Gulf English School
Qatar
